*Ceiling Fan*

# About Us

The brand 'Kimatsu' was conceptualized and founded in the year 1998 with an expertise in cooling appliances. Today it is a well-known brand for its innovative technology, designs, excellent quality and unmatched reliability.

We, at Kimatsu, strive to provide superior living conditions for our customers by improving air delivery, designs and the technology so that the end consumers get utmost satisfaction using our products. Within the present range of products, we are expanding our innovative electronics technology in fans which will provide a wide variety of choice with different usage systems.

Every range of fans is carefully designed keeping in mind the comfort required for our customers. We also do our bit for the environment by manufacturing our fans to be extremely energy efficient.

Kimatsu fans range includes:

- Economy Ceiling Fans.
- Premium Ceiling Fans.
- DC Ceiling Fans
- Kids ceiling Fans.
- Premium Ceiling Fans with LED Light.
- Table / Wall / Pedestal Fans .

Dream more with the comfort of our ceiling fans !

Bearing	Single row - deep groove - Heavy duty double ball bearing - Greased permanently.
Blades	All blades are made out of special alloy 1/2 hard tempered, Rolled sheet & with aerofoil design to give higher AD & low power consumption.
Regulator	Resistance type regulator, Choke type regulator or Electronic type optional
	 <p>Resistance      Double Resistance      Choke      3x3</p>
Speed Regulation	Min 50% drop of full speed at step 1 at rated voltage with equal incremental increase
Dr with clamp & rubber shackle	Made out of 1/2" BSP - Med. Class - 220mm long painted as per motor & blade colour
Canopy	Top & Bottom canopy made out of PP with matching colour with motor & Blades
Motor Specification	Squirrel cage AC induction motor with rotating field stator - class E insulation - spheroidal copper winding with double insulation - class 1 type motor - capacitor start & run

#### NOTE:

- Due to ever improvement concept , the specification may change without any further communication.
- All specifications are subject to +, - 10% of the declared value.
- For optimum AD the fan blades should be approximately 2.5 Mtrs from the ground level & approximately 0.3 mtrs from the ceiling level.
